

SMACO

API PIPE MILL

**HEAVY DUTY
RELIABLE**

SMACO API Pipe Mill

Heavy duty and reliable 12"API pipe mill line for API - 5L and 5CT.

Mill entry equipment, forming and sizing mill, ID scarfing, on-line UT, seam annealing, air cooling section, cold saw milling cut off, end cropping and run out system.

Finishing and testing equipment including end facer, hydrotester, internal drift test, off line UT, weighing, length measuring and marking, vanish coating, conveyor, pipe handling and bundling system.

Machine Features

Quick change features with hydraulic pull out quick coupling to disconnect universal shaft for roll change, off line roll change tooling including spare shaft and mill top housing.

Cold saw milling cut-off with orbital double TCT saw blade for round, square and rectangular hollow section.

Combination roll design to minimize roll tooling cost.

Level 2 automation and control system with coil and pipe tracking for API pipe traceability.

ABOUT SMACO

SMACO customized production machinery, process line and equipment for pipe and tube industry. From basic pipe mill line to complex automation production system, including finishing equipment, testing and automatic pipe transfer and handling system.

We provide technical consulting services for new and existing mill to understand the needs of each client. It is in listening that we achieved in providing the most cost effective, flexible production and efficient system for our client.
